moneyppenny

design for every body

Money Penny successfully integrates innovative technology with classic design. Incorporating a stylish mesh back, Money Penny provides a flexible and breathable surface with unsurpassed levels of comfort. Ergonomically engineered to provide the widest range of adjustment controls, allowing it to be optimized to the needs of every individual, while maintaining a contemporary aesthetic. Featuring the stylish J-bar, Money Penny exudes confidence both ergonomically and visually.

Money Penny comes standard with a black durable mesh back offering a flexible and breathable surface that guarantees the highest levels of comfort for the user. The variety of finishes available for Money Penny enables it to be tailored to suit a range of workspace interiors.

1 Lumbar pad

The lumbar pad on the backrest can be adjusted to five different positions to ensure the correct lumbar support.

2 Height-adjustable arms

Height-adjustable arms (controlled by a soft-touch button) with an optional multi-functional arm pad. The pad pivots to provide width adjustment and slides to provide depth adjustment.

3 Side tension

The side tension control is easily adjusted from the seating position.

4 Seat slide

The seat pan has four inches of sliding movement (exceeding BS EN 1335 by 100%) controlled by a soft-touch button.

5 Seat pan cushion

The seat is generous in size and permits easy replacement of the seat pan cushion, which ensures a low cost of ownership. All foams are molded CMHR to maximize comfort.

6 Casters

Wide 65mm casters maximize mobility.

7 Back tilt

Back tilt lock allows the backrest to move freely or to be locked into fixed positions.

8 Synchronized mechanism

Easy to use, the mechanism ensures intuitive navigation around the chair. Fully synchronized with a 2:1 movement.
