concourse

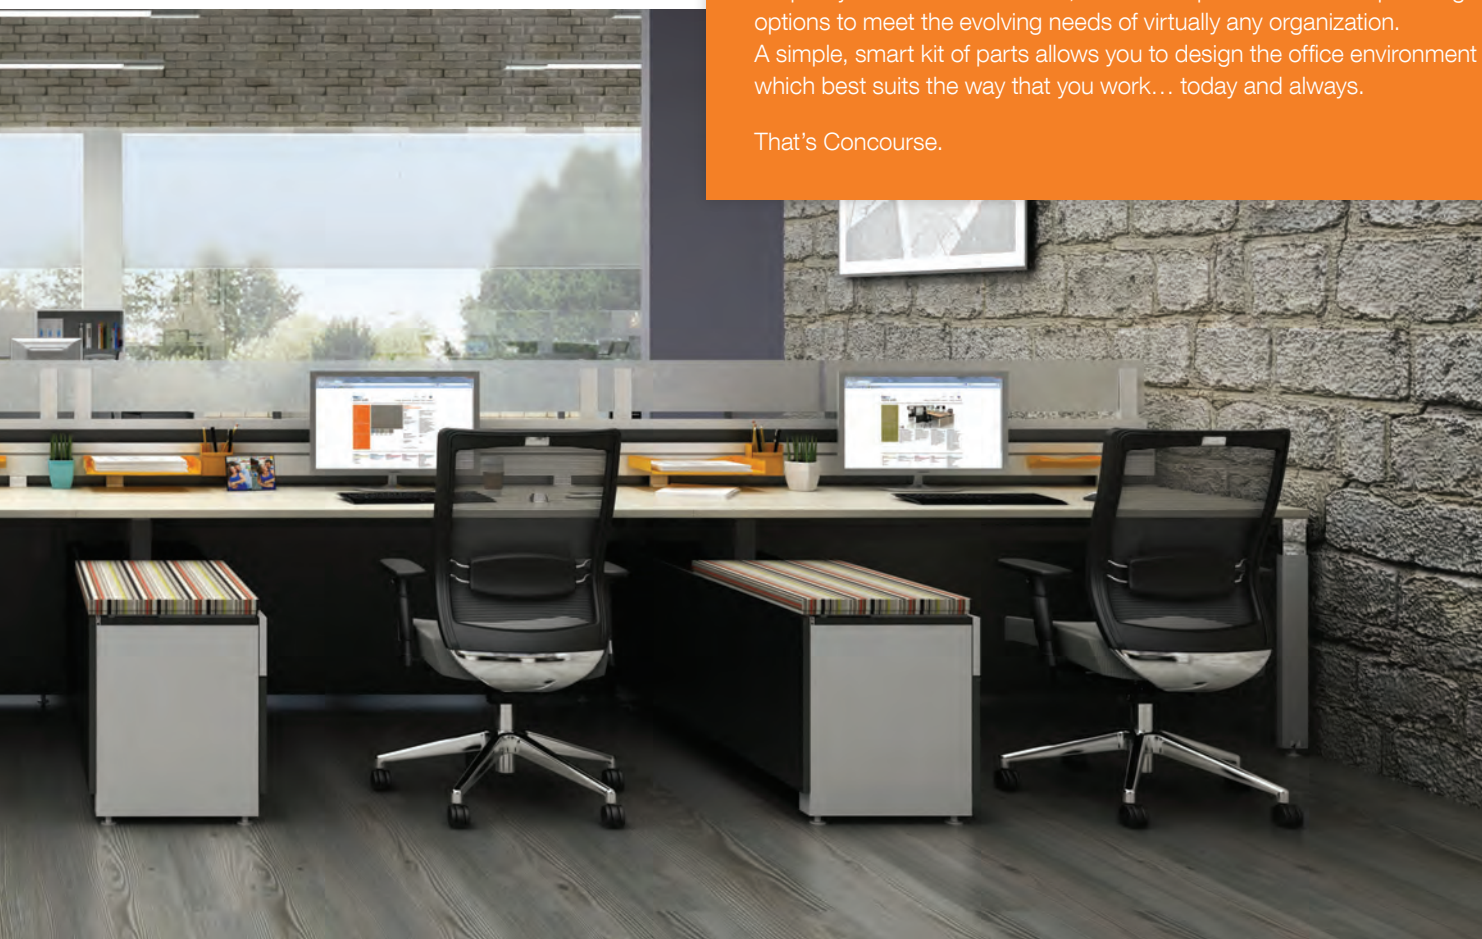

Worksurface - L143 acciaio laminato con P121 white details • Credenza - L121 white & L132 tuxedo laminato with Momentum Panorama 09132143 / gamma fabric • Obi chair - grey seat cushion with grey mesh back.

welcome to concourse

Characterized by a timeless appeal and designed with practical simplicity for the modern office, concourse provides limitless planning options to meet the evolving needs of virtually any organization. A simple, smart kit of parts allows you to design the office environment which best suits the way that you work... today and always.

That's Concourse.

get comfortable

Concourse was designed with your need to fit each of your employees in mind, offering a wide selection of height adjustable leg options all of which provide a standard 6" range. Sharing our signature profile detail and refined finish, options include panel gable (shown below), post leg (shown on right page), single open and spanning gable.

Each beautifully unique leg option offers standard chrome details and white or silver finishes. Concourse can adapt to ensure that each team member feels comfortable in multiple settings ranging from an open collaborative to private office.

Worksurface - L142 bona bona laminate with V121/P121/L121 white details • Mobile pedestal & Mass Chairs - Grade two seating fabric Sigma 9222 Particle • Ott chair - grey seat cushion with grey mesh seat back

be inspired

Concourse storage trunks are available in a multitude of configurations, from a simple open shelving trunk to a shared trunk with lockable personal storage and drawers, all of which provide a modern twist on the conventional need for space division. Whether used as a space divider, worksurface support or storage cabinet, concourse trunks are versatile units which allow you to stay a step ahead of your ever changing workplace needs.

A concourse worksurface is much more than just another worksurface. Be inspired! Choose from one of our standard unique shapes such as our J-TOP (shown to the left) or dream up your own custom worksurface shape...yes we do that!

Worksurface - L132 luvado laminate with P121 white details • Trunk storage - L121 white laminate • Frosted glaze privacy & modesty screens • Mobile pedestal - L121 white & L132 luvado laminate with Momentum Panorama 09132176 NOPI fabric • Office chair - grey seat cushion with grey mesh seat back

function

Concourse is designed for open plan, benching, and private office applications. Space efficient workstations are possible by virtue of sophisticated worksurface supporting storage and multifunction partitions. Concourse is easy to specify, install and reconfigure by using a simple inventory of “off-modular” components.

innovation

Concourse credenzas, pedestals, towers, and trunks support worksurfaces as well as define space while effectively reducing clutter with accessible storage areas both above and below the worksurface. Credenzas and trunks accommodate top mounted “off-modular” storage designed to increase storage capacity while providing added privacy. Credenzas accommodate top mounted “off-modular” seat cushions that can slide or be easily removed. Components connect without causing damage to visible surfaces.

aesthetics

Concourse is a sophisticated yet practical furniture system with the attributes of classic furniture. Concourse is designed with timeless contemporary aesthetics, elegant details, precise construction, and a “retro” influence. Horizontal lines, intersecting planes, and refined cubic forms with low elevations combine to create a modern appealing work environment.

quality

Concourse includes worksurface support components made of extruded and die-cast aluminum and powder coated with bright chrome plated details. Top mounted privacy screens are finished in designer acrylics, fabrics, laminates or tempered glass providing residential warmth and sophistication. Leather handles on cabinet sliding doors add a soft and familiar feel to the workspace.

sustainability

Concourse has worksurface support structure components made almost entirely of 100% recyclable aluminum. Laminate partitions, worksurfaces, and top mounted privacy screens are comprised of low VOC materials. Concourse utilizes very little plastic, and is assembled with water soluble adhesives and mechanical fasteners. Concourse places an emphasis on lower, more transparent workstations to respond to LEED (Leadership in Energy and Environment Design) requirements for light and view.

ergonomics

Concourse integrates several ergonomic design fundamentals such as a worksurface height adjustability that can be set from 26-inches to 32-inches. Concourse complies fully with American National Standards Institute HFSE 100-1988 Standards for Anthropometrics.

versatility

Concourse co-ordinates well with the entire Tayco portfolio and is designed to integrate with many of our other versatile lines. Concourse supports can be used to support worksurfaces semi suspended on panels or storage components easily incorporate into panel wrapped environments.

stay a while or...don't

As an inherently flexible and versatile benching platform, Concourse allows a fast and simple conversion of “my” space to “our” space in order to accommodate the ever-changing needs of the modern workforce. Remove the centre screen and the Concourse bench creates the perfect work area ideal for collaboration in small groups.

under work surface cable management

Worksurface - L142 bora bora laminate with P121 white details • Frosted glass privacy screens • Credenzas - L121 white & L142 bora bora laminate with Momentum Revolve 4209121305 Solar fabric • Mars chair - grey seat cushion with white seat back

worksurface grommet

powered credenza with cushion

slim privacy

Semi private work environments are easily achieved by integrating the Concourse thin partition in combination with top mounted privacy screens. Complete with a full cable management rail and associated electrical power system, say good bye to the need for a thick panel to create both powered and non-powered space division!
